

The National Education Association-Student Program is working hard to make college tuition affordable for students and their families. NEA-SP has lobbied members of the United States Congress in support of college and university student interests. You can help, too! A new, innovative text messaging system is currently in place, letting you know what is happening and what you can do. If you would like to participate in the NEA-SP text messaging project and receive updates on College Affordability, use your cell phone to text the word **student** to 35328.

Members continue to pass the word about this issue. Please encourage all college students to join our group on face book called ***“College Affordability Concerns Me”***.

Thank you for your support on this issue.
